## **Department Update:**

### **Public Works – Jason Stordahl**

**Streets:** With the recent severe weather staff has been busy maintaining lift stations and removing debris from streets and berms.

Our street improvement project is underway. The contractor has started removing/replacing damaged curb/gutters in the Mill and Overlay areas. The section of 4<sup>th</sup> Street NW between Demers Ave. and 5<sup>th</sup> Avenue NW is blocked off so they can do some concrete prep. before they overlay.

Work has started on the Riverview 10<sup>th</sup> addition paving project. They are removing the recycled concrete and preparing to pave the street.

You may have seen our new street sweeper; it was delivered a couple weeks ago and is now operational and on the streets.

**Mosquitoes:** The City has scheduled another spray the evening of July 21<sup>st</sup>.

**Wastewater:** Progress is continuing at the new lift station (lift 5). They are now working on the control building.
