

BUDGET BILLING

Your utility bill can vary widely from month to month depending on the season. Budget Billing eliminates those fluctuations by averaging your utility bill over 12 months and providing you with a fixed monthly amount. (Twelve months history is required for new customers)

Budget Billing amounts are reviewed quarterly and adjusted to reflect any variance. In the 12th month of your budget year you will settle up and automatically go back on the budget program unless you request to cancel.

To sign up for the Budget Billing Program, call the Business Office at 218-773-1163.
