

## LEAVING A HOUSE VACANT FOR THE WINTER?

If you are going away for the winter or leaving a house vacant over the winter months, remember if you **turn off** the heat in the house, you need to **drain** your water meter so that it does not freeze and break. This is an easy way to prevent a costly repair. For more information on this, please call the Water and Light Maintenance Office at 218-773-0515.
